### Copyright

### Scope and limit of liability

Nothing on this website should be construed as a solicitation or offer, or recommendation, to buy or sell securities or any other investment or banking product, or to provide any investment advice or service.

Nothing contained on this website constitutes investment, legal, tax or other advice and is not to be relied upon in making an investment or other decision.

### Investment Risk

Certain investments carry a higher degree of risk than others and are, therefore, unsuitable for some investors. Past performance is not a reliable indicator of future results. The value of investments, and the income from them, can go down as well as up, and you may not recover the amount of your initial investment. Where an investment involves exposure to a foreign currency, changes in rates of exchange may cause the value of the investment, and the income from it, to go up or down. Tax treatment depends on an investor's individual circumstances, and it may be subject to change.

Before contemplating any transaction, you should consult your financial adviser.

Any research and analysis in this website has been procured, and may have been acted upon, by RJIS and connected companies for their own purposes, and the results are being made available to you on this understanding.

RJIS, its clients and officers may have a position or engage in transactions in any of the securities mentioned in this website.
